”

I'm a Lithuanian software developer with a go-to positive attitude and a lifelong passion for technology. Since childhood, I've been fascinated by the inner workings of everyday applications and websites, always eager to explore the ever-evolving world of technology. My goal has always been to make a meaningful impact, even if it's just a small step forward in this vast field.

WORK EXPERIENCE

Freelance Web Developer Remote / Barcelona / 2024 - Present

Developed a responsive and user-friendly website for FilePortes using Next.js, enhancing navigation and customer engagement.

- Utilized JavaScript, HTML, and Sass, hosted on AWS, to ensure robust performance and scalability.
- Integrated Amazon WorkMail for secure communications.
- Designed efficient, easy-to-use contact forms and integrated QR codes on business cards for seamless website access.
- Employed SEO best practices to increase site visibility and organic traffic.

IT Support Specialist Pret-a-Manger / Dublin / 2021 - 2022

Diagnosed and resolved hardware, software, and end-user issues, ensuring minimal disruption to operations.

- Installed and configured laptops, desktops, printers, and peripherals to support staff productivity.
- Investigated and resolved complex IT support issues, collaborating with third-party technical specialists when necessary.
- Configured and managed backup and restore procedures to safeguard data integrity.
- Managed software updates and patches, maintaining the latest Microsoft Windows and Office environments.
- Handled customer complaints and concerns efficiently, ensuring adherence to company policies and procedures.

IT Level 2

Liberty Insurance / Dublin / 2022 - 2023

Rollout Windows 11 across multiple offices, managing scheduling and ensuring seamless transition.

- Coordinated with employees to upgrade laptops without significant work disruption, limiting downtime to under 30 minutes.
- Successfully completed the project months ahead of schedule.
- Repaired and maintained old hardware, and kept meticulous inventory records.
- Updated daily project reports and suggested efficient project workflows.
- Handled and resolved tickets for software and application issues.
